PROFILE

Full-stack developer with a strong foundation in modern JavaScript frameworks and hands-on experience evaluating and stress-testing large language models. Combining a University of Toronto data-science background with practical engineering skills, I build clean, scalable web applications end-to-end.

EDUCATION

University of Toronto, Honors BSc

Specialist in Statistics - Statistical Machine Learning and Data Mining (2015-2022)

JavaScript Mastery

React Developer Certification (2022-2023)

- Specializing in building scalable full-stack applications using ReactJS, NextJS, and TypeScript.

EXPERIENCE

AI Prompt Engineer & Evaluator

Outlier AI (2024 - Present)

- Engineered complex natural language prompts to fine-tune and evaluate large language models (LLMs)
- Designed stress-test scenarios to expose model limitations in advanced math, logic, and programming
- Contributed to the refinement of GPT-based systems aligned with industry and academic benchmarks

Business Analyst

Inossem Canada (2023 - 2024)

- Designed and maintained SAP technical documentation, including manuals, flowcharts, and troubleshooting guides.
- Conducted end-to-end system testing and collaborated with cross-functional teams to resolve backend SAP issues
- Improved client adoption and onboarding by developing interactive training and support resources

PROJECTS

Portfolio - [Link](#)

HipNode - Social Media Platform - [Link](#)

- Full-stack social media platform enabling instant user messaging using WebSockets and Node.js
- Integrated Cloudinary for managing and storing user-uploaded photos and audio files.
- Implemented login authentication, scalable database schema, and chatroom logic

MindLikes - Developer Forum - [Link](#)

- AI-powered developer forum with semantic search and GPT-based answer suggestions
- Engineered both front and backend with TypeScript, React, and MongoDB

Morrent - Car Renting Application - [Link](#)

- Designed a responsive multi-device car rental platform with admin and customer dashboards
- Used modular design patterns for clean, maintainable code

SKILLS

Languages: JavaScript, TypeScript, Python, SQL, HTML/CSS

Frontend: React, Next.js, Tailwind CSS

Backend: Node.js, Express, MongoDB, PostgreSQL

Other: Strong problem-solving, clean architecture, UI/UX awareness

LANGUAGE

- English
- Japanese
